

Harvest Vision for 2021 – A prayer request by Bishop Julius Laggah

Our vision for 2021 all things being equal, we have challenged ourselves to plant 150 Churches all over the country. Most of our churches committed themselves to plant at least one church and some two, three, five as the case may be.

Part of our strategies is to have capacity building seminars for our Pastors which are ongoing now (pictures below). A Harvest School of Missions and Evangelism is planned for April where we will train Church planters for two weeks and send them out to the mission field.

Please keep us in your prayers as the harvest is very ripe but the labourers are few.
